**2020-2021 ICE FISHING SERIES**

IF YOU THINK CATCHING FISH BEATS DRILLING HOLES,

---

# JOIN THE CLUB

---

When the temperatures drop and the water's surface freezes, the fishing still can be great — as long as you have the right gear for finding the best spots to drill and fish. That's why you go with Garmin technology: fishfinders and chartplotter/sonar combos that clearly show you what's happening below. Forget the guesswork, the random ice drilling. If you want to spend more time angling than auguring, a Garmin ice fishing bundle or kit is the gear that gets results. Plus, when warmer weather returns, your sonar can easily transition to your boat for year-round fishing at its best.

**GARMIN<sup>®</sup>**

# PANOPTIX LIVESCOPE™ ICE FISHING BUNDLE

Part no.: 010-02342-15

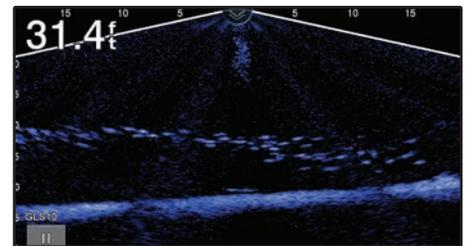

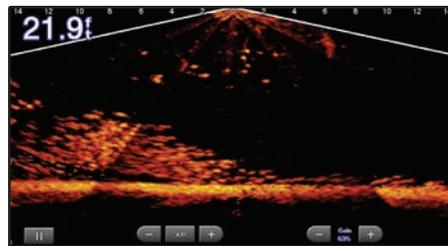

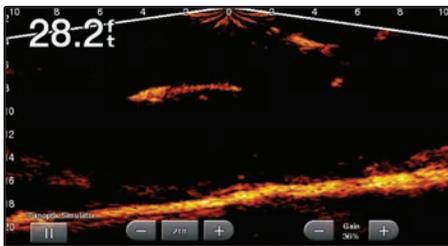

Our revolutionary Panoptix LiveScope sonar technology, paired with a large ECHOMAP™ UHD 93sv keyed-assist touchscreen display, makes this the ultimate bundle for serious ice fishing. Easily adjust the transducer to your fishing technique with LiveScope™ Forward and LiveScope™ Down modes. See what's happening under the ice in real time to locate fish and structure up to 200' in any direction. You can create a custom split-screen layout that combines flasher, map and Panoptix™ views on the display. Plus, you get preloaded LakeVü g3 mapping with integrated Navionics® data covering more than 18,000 lakes.

This Panoptix LiveScope bundle includes the ECHOMAP UHD 93sv chartplotter, a compact GLS 10 black box, LVS32 transducer with swivel pole mount, 12Ah battery with charger and power cable — plus a deluxe padded case that's glove-friendly for ice fishing.

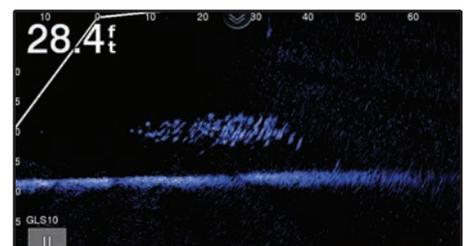

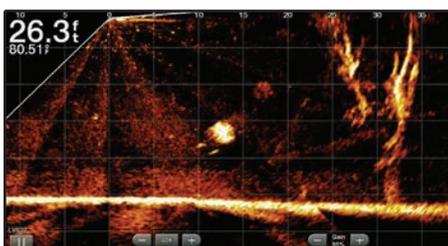

- 9" PANOPTIX LIVESCOPE FORWARD AND DOWN
- SEE FISH UP TO 200' AWAY – AROUND YOU, BELOW THE ICE
- CUSTOMIZABLE COMBO SCREEN
- PRELOADED LAKEVÜ G3 MAPPING
- BUILT-IN QUICKDRAW CONTOURS

## PANOPTIX LIVESCOPE DOWN

Live, easy-to-interpret scanning sonar images of structure and swimming fish in incredible detail below the ice.

## PANOPTIX LIVESCOPE FORWARD

An excellent tool for scouting and fishing, it can show real-time scanning sonar images of structure and fish swimming all around below the ice.

# PANOPTIX™ PS22 ICE FISHING BUNDLE

Part no.: 010-02334-20

Drill hole. Drop line. Catch fish. What could be simpler or more rewarding than a wintertime fishing excursion with our Panoptix ice bundle? It includes an ECHOMAP™ UHD 73cv touchscreen display with keyed assist and 3 types of sonar: narrow beam CHIRP traditional, Panoptix LiveVü Forward and LiveVü Down.

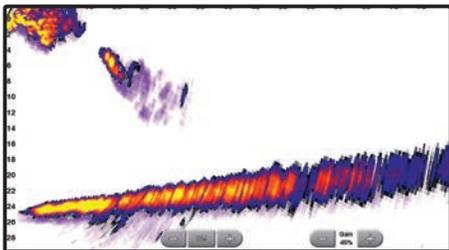

The Panoptix modes let you see up to 100' all around you, below the ice, so you can locate schools of fish and know where to drill the next hole. Garmin CHIRP traditional sonar provides crystal-clear fish images with remarkable target separation and jig

detection. You can create custom combination pages to display flasher, map and Panoptix views simultaneously. Plus, you can access preloaded LakeVü g3 maps with integrated Navionics® data covering more than 18,000 lakes.

This Panoptix ice bundle includes the ECHOMAP UHD 73cv chartplotter and swivel pole mount for the Panoptix PS22 transducer. There's also a 12Ah battery with charger, power cable, grommet and foam float – all in a convenient, glove-friendly portable bag.

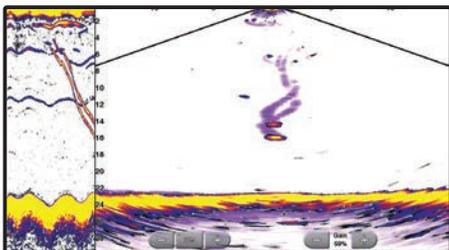

7"
PAANOPTIX LIVEVÜ FORWARD AND DOWN
SEE FISH UP TO 100' AWAY – AROUND YOU, BELOW THE ICE
CHIRP TRADITIONAL 8-16° BEAM ANGLE
CUSTOMIZABLE COMBO SCREEN WITH BUILT-IN FLASHER
PRELOADED LAKEVÜ G3 MAPPING

## LIVEVÜ FORWARD

Provides a live sonar look at fish swimming and moving toward or away from you, below the ice. Drop your lure right to the fish. See your lure. See fish react to your lure. See and feel the strike.

## LIVEVÜ DOWN

Shows real-time moving sonar images of small baitfish and large target fish swimming below the ice and pinpoints their distance left or right and their depths.

# ECHOMAP™ UHD 73cv ICE FISHING BUNDLE

Part no.: 010-02334-15

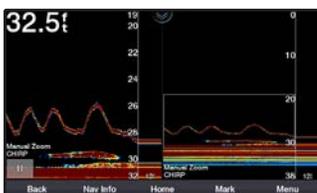

For year-round versatility, this easy-to-set-up chartplotter/sonar combo with vivid 7" keyed-assist touchscreen goes from boat to ice fishing configuration without missing a beat. Its high-narrow CHIRP ice fishing transducer with selectable beamwidth provides crisp, clear fish arches with excellent target separation. A built-in flasher offers precise jig and fish detection. And there's also support for ClearVü scanning sonar and its nearly photographic images of what's below the ice (transducer sold separately). You can create custom combination pages that show sonar, flasher and map views simultaneously on your display. Plus, preloaded LakeVü g3 maps with integrated Navionics® data provide coverage on more than 18,000 lakes and include Quickdraw Contours map drawing software – so you can create and save your own fishing maps with 1' contours.

A rugged, glove-friendly carrying case holds everything you need, including the ECHOMAP UHD 73cv chartplotter, GT10HN-IF CHIRP ice fishing transducer, 7Ah battery, charger, power cable, grommet and foam float.

- 7"  
 INCLUDES HIGH-NARROW CHIRP TRANSDUCER
- SUPPORTS CLEARVÜ SCANNING SONAR
- CUSTOMIZABLE COMBO SCREEN WITH BUILT-IN FLASHER
- PRELOADED LAKEVÜ G3 MAPPING
- BUILT-IN QUICKDRAW CONTOURS

## CHIRP TRADITIONAL

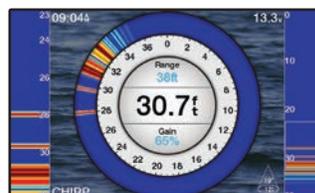

Crisp, clear CHIRP traditional sonar.

## CUSTOMIZABLE COMBO SCREENS

Create custom combination pages that show sonar, flasher and map views simultaneously on your display.

## BUILT-IN FLASHER

Built-in sonar flasher ensures precise jig and fish detection under the ice or on your boat.

## QUICKDRAW CONTOURS MAPPING

Create and store maps as you fish with 1' contours for up to 2 million acres.

# ECHOMAP™ UHD 63cv ICE FISHING BUNDLE

Part no.: 010-02330-15

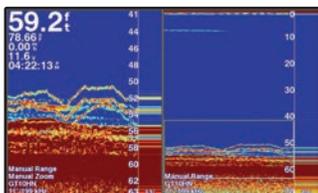

Whether you're casting from a boat or hunkered on the ice, this versatile 6" chartplotter/sonar combo is your all-weather portable for great fishing. It's bundled with a high-wide CHIRP ice fishing transducer that shows you crisp, clear fish arches with excellent target separation. The built-in flasher lets you see your jig and detects the depth of fish as they swim into the sonar beam. There's also support for ClearVü scanning sonar and its nearly photographic images of what's below the ice (transducer sold separately). You can create custom combination pages that show sonar, flasher and map views simultaneously on your display. Plus, you get preloaded LakeVü g3 maps with integrated Navionics® data covering more than 18,000 lakes. There's also Quickdraw Contours map drawing software that lets you save your own fishing maps with 1' contours.

In addition to the ECHOMAP UHD 63cv chartplotter and GT8HW-IF CHIRP ice fishing transducer, this bundle comes with a 7Ah battery, charger, power cable, grommet and foam float – all in a convenient, glove-friendly carrying case.

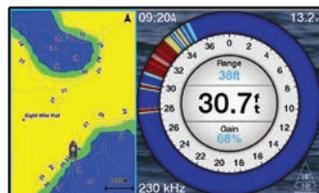

- 6"  
 INCLUDES HIGH-WIDE CHIRP TRANSDUCER
- SUPPORTS CLEARVÜ SCANNING SONAR
- CUSTOMIZABLE COMBO SCREEN WITH BUILT-IN FLASHER
- PRELOADED LAKEVÜ G3 MAPPING
- BUILT-IN QUICKDRAW CONTOURS

## CHIRP TRADITIONAL

Crisp, clear CHIRP traditional sonar.

## CUSTOMIZABLE COMBO SCREENS

Create custom combination pages that show sonar, flasher and map views simultaneously on your display.

## BUILT-IN FLASHER

Built-in sonar flasher ensures precise jig and fish detection under the ice or on your boat.

## QUICKDRAW CONTOURS MAPPING

Create and store maps as you fish with 1' contours for up to 2 million acres.

# STRIKER™ PLUS 5 ICE FISHING BUNDLE

Part no.: 010-01872-20

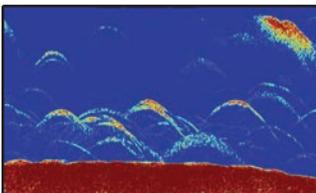

During the warm weather months, you can use this powerful STRIKER Plus fishfinder on your boat to scout your favorite lakes, find the good spots and mark them with a GPS waypoint. Then when winter sets in, just follow the path created on your screen to cut right to the ice fishing chase. This versatile bundle includes a Garmin high-wide CHIRP ice fishing transducer that gives you crystal-clear images with excellent target separation. And the built-in flasher shows your jig or weighted bait as well as the depth of fish swimming into the sonar beam. You can even watch your jig being lifted or dropped – and see whether fish are moving toward or away from it. Included Quickdraw Contours mapping software lets you create and store up to 2 million acres of maps with 1' contours. There's also support for ClearVü scanning sonar and its nearly photographic images of what's below the ice (transducer sold separately).

This STRIKER Plus 5 ice fishing bundle includes the fishfinder, GT8HHW-IF CHIRP ice fishing transducer, rechargeable 7Ah battery, charger, foam float, grommet and a portable carrying case for it all.

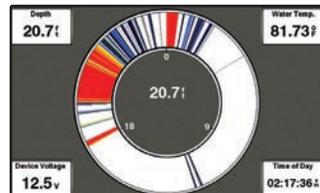

5" INCHES | INCLUDES HIGH-WIDE CHIRP TRANSDUCER | SUPPORTS CLEARVÜ SCANNING SONAR | BUILT-IN FLASHER | MARK WAYPOINTS, NAVIGATE WITH GPS | BUILT-IN QUICKDRAW CONTOURS

## CHIRP TRADITIONAL

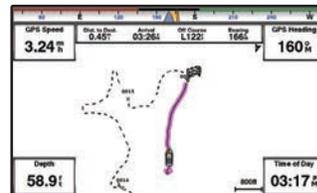

Crisp, clear CHIRP traditional sonar.

## BUILT-IN FLASHER

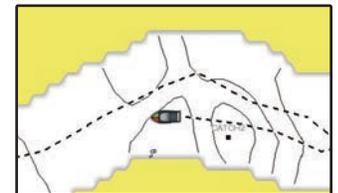

Built-in sonar flasher ensures precise jig and fish detection under the ice or on your boat.

## GPS NAVIGATION

Mark your best fishing spots with GPS waypoints so you can return in summer or winter.

## QUICKDRAW CONTOURS MAPPING

Create and store maps as you fish with 1' contours for up to 2 million acres.

NEW

# STRIKER™ PLUS 4 ICE FISHING BUNDLE

Part no.: 010-01870-30

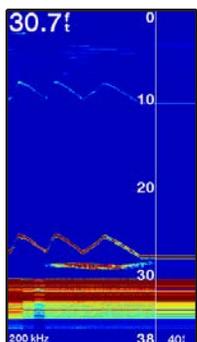

Anytime, anywhere you're ready to go fishing, the compact STRIKER Plus 4 bundle makes it easy to have a great outing. With its bright 4.3" display and intuitive user interface, you'll get a clear view of what's happening below the surface – whether you're fishing on ice or open water with Garmin GT20 CHIRP traditional and CHIRP ClearVü scanning sonar (transducer sold separately). The included dual-beam ice fishing transducer with Garmin CHIRP traditional sonar gives crystal-clear images in shallow and deeper water with remarkable target separation. Plus, a built-in high-sensitivity GPS lets you mark the good spots with waypoints, so you can easily return to fish them again. Looking down through the ice, the fishfinder's A-scope flasher mode lets you select and view a real-time display of fish swimming into the sonar beam. Then when you transition to a boat for warm-weather fishing, GPS tracking lets you know how fast you're moving so you can be sure you're trolling at the right speed for the lure you're using or the environmental conditions you're dealing with.

This STRIKER Plus 4 ice fishing bundle includes the fishfinder, CHIRP sonar ice fishing transducer, rechargeable 7Ah battery, charger, foam float, grommet and a portable carrying case for it all.

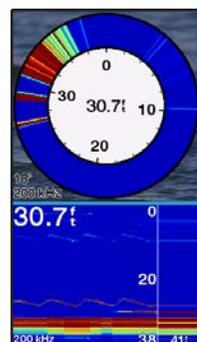

4"
INCLUDES DUAL BEAM-IF TRANSDUCER
SUPPORTS CLEARVÜ SCANNING SONAR

BUILT-IN QUICKDRAW CONTOURS

## CHIRP TRADITIONAL

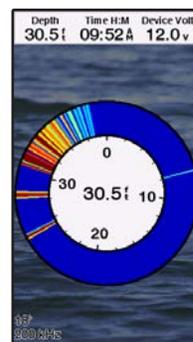

Crisp, clear CHIRP traditional sonar.

## CUSTOMIZABLE COMBO SCREENS

Create custom combination pages that show sonar, flasher and map views simultaneously on your display.

## BUILT-IN FLASHER

Built-in sonar flasher ensures precise jig and fish detection under the ice or on your boat.

## QUICKDRAW CONTOURS MAPPING

Create and store maps as you fish with 1' contours for up to 2 million acres.

# ICE FISHING KITS

NEW

## PANOPTIX LIVESCOPE™ ICE FISHING KIT

With GLS10 and LVS32 Transducer

Part no.: 010-12676-50

Drill fewer holes and catch more fish with the Panoptix LiveScope ice fishing kit. It includes everything you need to take your ECHOMAP™ Plus/UHD unit from your boat onto the ice. Pair your device with the Panoptix LiveScope system and see up to 200' in any direction with LiveScope™ Forward and LiveScope™ Down. The LiveScope kit can host up to the 10" ECHOMAP Ultra. The kit includes a swivel pole mount for the Panoptix™ transducer, a 12Ah battery with charger, power cable, grommet and foam float — all with a rugged, glove-friendly carrying case.

## LARGE PORTABLE ICE FISHING KIT

With GT10HN-IF Transducer

Part no.: 010-12676-00

It's a perfect fit for your STRIKER™ Plus 7/9 or ECHOMAP™ Plus/UHD 6x/7x/9x. This ice fishing kit comes complete with a GT10HN-IF high-narrow CHIRP ice fishing transducer plus a glove-friendly bag to protect your devices. Also included are a foam float, grommet, 12Ah battery with charger, power cable, and built-in cable management and storage.

## SMALL PORTABLE ICE FISHING KIT

With GT8HW-IF Transducer

Part no.: 010-12462-10

A rugged, glove-friendly case carries and protects your 4", 5", 6" or 7" Garmin STRIKER™ fishfinder or ECHOMAP Plus/UHD combo system — while the kit adds the GT8HW-IF high-wide CHIRP ice fishing transducer you need for traditional sonar ice fishing. There's also a foam float, grommet, 7Ah battery with charger, power cable, and built-in cable management and storage.

# ACCESSORIES

## EXTRA-LARGE CARRY BAG AND BASE

Part no.: 010-12676-05

This is the big bag and base you'll need to carry your LiveScope™ System and ECHOMAP™ Plus/UHD 7x/9x or ECHOMAP™ Ultra 10x and all the various components that make up your ice fishing rig.

## GARMIN ICE FISHING TRANSDUCERS

Part no.: 010-12401-20 – GT8HW-IF  
Part no.: 010-12677-00 – GT10HN-IF  
Part no.: 010-13069-00 – Dual Beam-IF

Garmin ice fishing transducers provide crisp, clear and wide fish arches with excellent target separation. Choose the 4-pin, GT8HW-IF high-wide CHIRP ice fishing transducer for a larger coverage area. Choose the 8-pin, GT10HN-IF high-narrow CHIRP transducer for precise jig and fish detection. Or choose the new 4-pin Dual Beam-IF ice fishing transducer with beamwidths of either 15 or 45 degrees for precise detection and target imaging.

## PANOPTIX™ ICE FISHING MOUNT

Part no.: 010-12676-10

This zero-degree tilt shaft pole mount allows you to rotate your Panoptix transducer, while under the ice, to locate fish around you. Compatible with your Panoptix™ PS22 and Panoptix LiveScope™ LVS32 transducers.

## ECHOMAP™ PLUS/UHD 7Xcv BOAT KIT

Part no.: 020-00200-09

Take your 7" ECHOMAP Plus/UHD cv combo from the ice to your boat with the easy-to-install kit. It includes GT22HW-TM transducer with high-wide CHIRP traditional and ClearVü scanning sonar, tilt/swivel mount with quick-release cradle and power/data cable.

## ECHOMAP™ PLUS/UHD 9Xsv BOAT KIT

Part no.: 020-00200-11

Take your 9" ECHOMAP Plus/UHD sv combo from the ice to your boat with the easy-to-install kit. It includes GT52HW-TM transducer with high-wide CHIRP traditional, ClearVü and SideVü scanning sonars, tilt/swivel mount with quick-release cradle and power/data cable.

## 12AH LEAD ACID BATTERY

Part no.: 010-12676-30

Keep reliable power flowing to your compatible Garmin ice fishing rig, even in seriously cold winter conditions, with this 12Ah lead acid battery.

## PANOPTIX LIVESCOPE™/PS22 ALL-IN-ONE POWER CABLE

Part no.: 010-12676-40

Use this power cable to connect your Panoptix LiveScope or Panoptix™ PS22 transducer and ECHOMAP™ UHD 7x/9x or ECHOMAP™ Ultra 10x chartplotter to the battery of your compatible Garmin ice fishing bundle or kit.

## PANOPTIX LIVESCOPE™ 0° MOUNT

Part no.: 010-12676-15

For use with your Panoptix LiveScope LVS32 transducer, this 0-degree pole mount positions the transducer for the optimal viewing angle while ice fishing.

## PANOPTIX™ POWER CABLE

Part no.: 010-12676-35

All-in-one power cable makes it easy to connect your Panoptix PS22 transducer and ECHOMAP UHD 7x/9x or ECHOMAP Ultra 10x chartplotter to battery power for ice fishing. Compatible with your Panoptix PS22 Ice Fishing Bundle and Panoptix PS22 Ice Fishing Kit.

## CHARGER FOR LEAD ACID BATTERIES

Part no.: 010-12676-45

Stay charged wherever you go with our North America AC charger. Simply plug the adapter into a wall outlet and connect the other end to the power cable included with the purchase of select portable ice kits.

## MARINE NETWORK ADAPTER CABLE

Part no.: 010-12531-10

Convert your compatible device's network connector from small to large so it can connect to a compatible Garmin chartplotter.
