

1971 34ft Vindex - enclosed flybridge

Price: \$129,000

The timeless look of these Vindex vessels is what makes them appealing. And this 1971 version is no exception. She has an enclosed flybridge to keep you warm and dry on those wet runs home and what better place is there to chill with a beer or wine in a quiet bay somewhere. She has been well maintained by loving owners, but they now find they are not using her enough to justify keeping her. The decision to sell, has been a very hard one on their behalf and represents a real opportunity for another family or couple to own her and continue her story. Powered by a reliable 175hp Hino Diesel, she will not let you down.
