

1990 Vindex 3000 Sedan

Price: \$93,500

ANAHERA is a Vindex 3000 Sedan, custom built for her original owner by Patullo Bros and launched 1990. The production hull and decks have been custom fitted out with a completely bespoke interior and unique layout. The cockpit and helm area are simply enormous, giving a multitude of entertainment, water sports, dining and relaxing options. Dual live bait tanks and a big removable filleting board take care of the fish. Access to the single 200hp Volvo Diesel is superb and makes servicing a breeze. She cruises economically at 16 to 18 knots purportedly using only 18ltrs/hour. As the sun goes down you can retire to the lower salon with full galley, Head & shower, Private double cabin and another double in the forepeak. This launch is a well-conceived adaptation of the Vindex 3000 family that delivers easy two-level access throughout. Her very special marina berth at Milford Marina may also be available upon application to Milford Mariners. The berth she occupies is on the first Pier to receive a floating walkway, power, water and security gate. This project is transforming Milford Marina to rival any in Auckland and is in an extremely desirable location.
