

VANGUARD 40 ORIGIN

LIMITED EDITION

THE ORIGINAL. REIMAGINED.

A DESIGN WORTH RETURNING TO

Some designs capture the spirit of their time. A rare few continue to feel relevant long after they first appear.

The Vanguard 40 Origin Edition traces its lines back to the original VanDutch 40, the yacht that introduced an entirely new visual language to the water. Its low profile, clean surfaces and uncompromising simplicity made it immediately recognisable. It did not look like anything else in the harbour, and that was precisely the point.

Vanguard Dutch Marine stood at the foundation of that story. Now, rather than leaving such a distinctive design behind, Vanguard is returning to its origins and bringing it forward for a new generation.

Every Vanguard 40 Origin Edition begins as a completely new GRP composite hull, produced using the original moulds. The proportions and essential character of the yacht are preserved, while its engineering, equipment, materials and onboard experience are updated to meet contemporary expectations. The intention is not to recreate the past, but to recognise that genuinely good design does not need to be replaced simply for the sake of appearing new.

It needs to be made relevant again.

The result is neither a restoration nor a replica. It is a newly built yacht with a familiar silhouette, a modern specification and a new identity. It connects the design that began the story with the brand that will now take it forward.

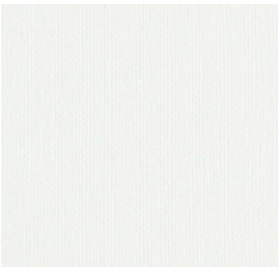

SPECIFICATIONS

MODEL	VANGUARD 40 ORIGIN
LENGTH	12.2 M / 40 FT
BEAM	3.50 M
DRAFT	0.95 M
DISPLACEMENT	APPROXIMATELY 8.5 T
CONSTRUCTION	NEW-BUILD GRP COMPOSITE HULL
ENGINES	2 × YANMAR 6LT500 DIESEL
TOTAL POWER	1,000 HP
PROPULSION	SHAFT DRIVE
CRUISING SPEED	APPROXIMATELY 34 KNOTS
MAXIMUM SPEED	40+ KNOTS
RANGE	300 NM AT 26 KNOTS
FUEL CAPACITY	1200 L
FRESH-WATER CAPACITY	300 L
MAXIMUM PASSENGERS	16
CLASSIFICATION	CE CATEGORY B
PROPULSION & HANDLING	BOW THRUSTER AUTOMATIC TRIM SYSTEM AUTOPILOT
HELM & NAVIGATION	GARMIN NAVIGATION SYSTEM YANMAR ELECTRONIC ENGINE CONTROLS VHF RADIO DIGITAL ANCHOR-CHAIN COUNTER HELM-OPERATED ANCHORING CONTROLS CUSTOM INTEGRATED ANCHORING SYSTEM

EXTERIOR COMFORT	CUSTOM-DESIGNED BIMINI PASSERELLE FOR EASY BOARDING FRESH-WATER SHOWER AT THE BOW COMPOSITE DECKING COCKPIT TABLE EXTERIOR AMBIENT LIGHTING UNDERWATER LIGHTING FULL PROTECTIVE COVER FENDERS AND MOORING LINES
ENTERTAINMENT & REFRESHMENTS	PREMIUM AUDIO SOUND SYSTEM BOWERS & WILKINS SPEAKERS TWO REFRIGERATORS ICE MAKER INTEGRATED SINKS GALLEY COOKING FACILITY
INTERIOR COMFORT	AIR CONDITIONING BATHROOM WITH TOILET AND SHOWER HOT-WATER SYSTEM CONVERTIBLE LOUNGE AND DINING ARRANGEMENT INTERIOR AMBIENT LIGHTING
ELECTRICAL & SAFETY	SHORE-POWER CONNECTION AND CABLE INVERTER AND BATTERY CHARGER BATTERY-MONITORING SYSTEM AUTOMATIC FIRE-SUPPRESSION SYSTEM
OPTIONAL EQUIPMENT	SEAKEEPER 4 STABILISER

BORN TO BREAK CONVENTION

DUTCH DESIGN FOR THOSE WHO CHOOSE THEIR OWN COURSE.

Vanguard was created for those who believe a yacht should have character, not convention.

The brand is the latest chapter in the story of Vanguard Dutch Marine, the Dutch company that stood at the foundation of VanDutch in 2007. That same instinct for iconic simplicity now drives Vanguard forward, translated into a new generation of yachts designed for today.

Our philosophy is simple. Literally. Clean lines, strong proportions and nothing without purpose. It may look effortless, but achieving true simplicity is one of the hardest things in design. The result is unmistakably Vanguard: modern, confident and just rebellious enough.

Built in the Netherlands by carefully selected specialists, every Vanguard combines distinctive design with considered engineering, quality and comfort. Our flexible approach allows us to focus on what truly matters: creating exceptional yachts without unnecessary complexity.

Ranging from 30 to 70 feet, Vanguard creates dayboats and tenders for owners who recognise great design, appreciate quality and prefer to choose their own course. For yachts above 80 feet, sister brand Armada extends the vision of Vanguard Dutch Marine into a larger class.

We do not follow the established order. We would rather redefine it.
