

2008 Jeanneau 36i

Price: \$165,000

When it comes to production boatbuilding, no one on the current manufacturing tableau does it any better than the French builder Jeanneau, and the proof of that statement is very much in evidence with the Sun Odyssey 36i. The “i” stands for injection molding, the process-in which resin is injected under pressure through closed molds-that the company employs for the 36i’s balsa-cored decks as well as for other components. It makes for lighter, stronger structures and cleaner, more environmentally friendly factories. The hull itself is hand-laid fiberglass utilizing two layers of vinylester resin, to which an internal fiberglass grid-Jeanneau calls this its “3rd Generation Hull Structure”-is glued and laminated for strength and rigidity. All this would be rendered moot if the design itself didn’t meet a certain level of performance and aesthetics, but French naval architect Marc Lombard, who made his name with sleek and powerful offshore raceboats, conceived the 36i, and he’s delivered a boat that looks smart and modern and sails very well. In profile, the boat is clearly a member of the extended Sun Odyssey family: With its fractional rig, gentle sheer, and low-slung coach roof, it’s a classic example of a contemporary performance cruiser.

PMG’s Ian Duncan is proud to represent the sale of Knot@Work and welcome you to view her by appointment.

Broker's Comment:

I have come to know the vendor of this outstanding Jeanneau 36i and their infectious enthusiasm for this yacht has rubbed off. They sold [Knot@Work](#) and missed her so much that they bought her back again a year later! They have continued to lavish care upon her with recent work including:

Oct 2025 Bare keel sandblasting-Epoxy prep, full hull polish and new antifouling

July 2025 New salon cabin windows

June 2025 New gear box, dripless shaft seal, engine/shaft alignment and service

March 2025 New rigging

New electrical warrant of fitness

New Flexiteek upgrade to cockpit and swim step (2022)

New oven (2022)

New B&G Vulcan Chartplotter with fish finder (2022)

Gas detector

Custom tender davits

I had the pleasure of skippering Knot@Work with a fresh Westerly that offered a good test of vessel and crew.

Well behaved and predictable sailing in the short chop sea conditions that are so often encountered in the Gulf. Auto helm and nice balance allows for easy shorthanded or solo sailing. An exhilarating sail with huge margins of reserve that provide skipper confidence and pleasure to the journey.

[Knot@Work](#) is completely ready for a lucky new owner to sail away, anywhere in NZ waters.

Description

Model/Brand: Jeanneau 36i

Type: Sloop

Length LOA: 10.74m

Beam: 3.59m

Draft: 1.94m

Berths total: 7

Designer: Marc Lombard

Builder: Jeanneau Yachts

Launched: 2008

Last Refit: 2022 – Fitted Stainless steel swiveling removal davits. Replaced teak deck with Flexiteek.
