Sea Ray 44 Sedan Bridge

PRICE \$395,000 NZD – LOCATION: GULF HARBOUR MARINA

With a well-respected, reliable and renowned brand, Current Obsession the 2006 Sea Ray 44 Sedan Bridge will be sure to impress whether moored in a bay or skimming across the ocean. She has been highly cared for by her proud owners that have crafted her to the standard she deserves. This is apparent not only as you step aboard, but also as you come to appreciate all the system upgrades.

Twin 500hp Cummins engines have you at a comfortable 20 knots cruising speed with a burn rate of 130 litres per hour combined. The Garmin electronics package was upgraded in 2021 and completes the easy to navigate helm station with bow thruster, engine management systems, trim tabs and autopilot. With an Onan 7 Kva generator completing the package and making extended trips easily achievable.

A two-cabin layout with forward stateroom having the walk around double berth and midship cabin set up as two singles that can be converted to another double. If extra berthage is required there is also the ability to pull out the saloon settee to create another double, totaling 6 berths across the vessel in total. A nice feature of this size vessel is the two bathrooms, both with separate, large showers not having been configured directly over the heads.

Current Obsession is a vessel that will prove herself in person just as much as she will on the water. Credit to her owners that have maintained her to a high standard that will benefit the next crew looking to explore the ocean in sporty style.

Berthed in Gulf Harbour Marina and ready to be viewed, give Ian Duncan a call on 021 121 9524 today to hear more about her.
