

1995 52ft Roberts Spray

Price: \$125,000

VESSEL – SELLING POINTS – The Roberts Spray is a cruising sailboat created by the New Zealand yacht designer Bruce Roberts. Bruce is known for designing sailboats that are typically used for long-distance cruising and offshore sailing. The 52ft Roberts Spray yacht is a sturdy and seaworthy vessel, suitable for extended voyages and comfortable living aboard. The "Spray" name is a homage to the famous American sailor Joshua Slocum's yacht, also named Spray, which was the first boat to sail solo around the world in the late 19th century. The design principles behind the Roberts Spray include features like a full keel for stability, a comfortable interior layout for extended stays, and a rig that allows for easy handling, even singlehanded.
